

# ANTI-HUMAN TRAFFICKING

The Métis Nation of Ontario (MNO) offers the **Anti-Human Trafficking Program** to help those affected or at risk of Human Trafficking. Human trafficking is when people are recruited, moved, or held against their will for labour or sex.

AHT Coordinators focus on helping those at risk or already affected by trafficking. They work to improve community support by forming partnerships and providing resources and training to raise awareness about human trafficking.

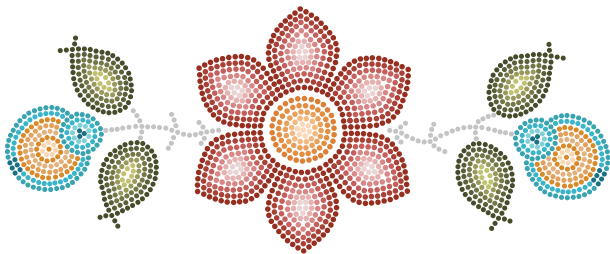

We are Métis focused, trauma-informed, and work from a harm reduction perspective.
